

AresX™ Monitor Equipment

Charging Handheld Metal Detector

AresX™ handheld metal detector is a special handheld high and low-sensitivity optional metal detector. All parts are made of high-quality element. And it is featured with high detection accuracy, simple operation, light and beautiful appearance, melodious and loud sound. It has starting and detection warning lamp and should-light automatic switching function and is especially applicable to public places or factories with extremely high requirement on detection sensitivity.

Scope of Application

Security inspection for examination room in school, airport, public security office, border defense office, court, prison, detention house, stadium, exhibition venues, entertainment venues, station pier, airport, industrial facilities, cultural attractions, military installations and data processing center; Anti-theft prevention for precious metal manufacturing and processing enterprises, such as: jewelry, electrons, hardware and vehicle enterprises.

Performance & Features

It is equipped with leather sheath and is convenient to carry. Special appearance of sensitive surface makes operation simple and easy to operation and is superior to loop sensor type detection.

Equipped with charging function, with the charging time of 4 to 6 hours

When voltage is insufficient, indicator light is not light or there is no alarm sound.

It has high sensitivity and it can detect black metal and nonferrous metals. It is simple and convenient to use and easy to adjust. It adopts cycle switch to separately switch audible warning and concealed vibration alarm function and earphone can be selected.

Alkaline battery works with 10%-15% alarm proportion and it can work for more than 150h continuously.

It can detect object with the size like one turnround needle at minimum.

PERFORMANCE

Technical Parameters	
Boundary Size	410 * 85 * 45 mm
Working Power Supply	Standard 9V laminated alkaline battery
Alarm Method	Sound (vibration) & light simultaneous alarm
Max Sensitivity	
38 Type Gun	25 cm
Knife	18 cm
Blade	13 cm
Physical Info	
Dimension	41 * 8.5 * 4.5cm (product only) 54.5 * 30 * 43.5cm
Product Weight	409 g
