

# AresX™ Jamming System

## Portable Tactical UAV Jammer

*AresX™ portable Tactical UAV jammer has increasing incidents of drones flying over important and sensitive facilities of drones has given rise to anti drone defense system. Housed with a trolley case, high mobility. This jammer has been designed to protect some privacy as well as military and government, critical infrastructure and commercial organization by blocking common remote control signals like 2.4G, 5.8G and GPS signals.*

*System is equipped with a wired remote control panel for a remote ON/OFF management. Designed with internal lithium iron phosphate battery. External battery is also optional.*

### SPECIFICATION

MODEL	UAV JAMMER-MOBILE
Frequency Bands	2.4G: 2400-2500Mhz GPS L1: 1575.42Mhz 5.8G: 5725-5875Mhz
Module Output Power	20-100watt/band
Module Quantity	up to 5 modules, still depending on the configuration
Size	565*460*270mm
Net Weight	Aprox. 38kgs
Antenna Type	Omni antennae or Omni directional antennae optional
Battery	Built-in lithium Iron Phosphate 35AH/24V
Power Supply Voltage	230VAC/110VAC 24-27VDC
